

I am writing to tell you that I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I elect to pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear--especially by subscription. Respectfully I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I elect to purchase.
